

Do you know why more and more people are drinking it?

Have people asked you about it?

Are you caring for your well-being?

In simple terms, goji provides superior nutrition which supports inter-cellular communication enabling the body to function as its peak.

What's so significant about the *Himalayan Variety* of goji berry?

IN A NUTSHELL Research shows the strain of goji that originated in the Himalayas is the most potent and powerful of all goji berries – beyond the benefits of all varieties of goji berry, this strain has **4 RARE bioactive polysaccharides** in an exact and unique nutrient profile **not known in any other plant OR strain of goji berry** – which makes it superior and more potent in its crucial benefit of sending chemical messages when required to enable different parts of the body to communicate and function more efficiently.

ONLY Himalayan Goji® Juice is made from:

- **COLD-PRESSED** berries (not boiled)
- **FRESH** berries (not dried – drying destroys the important bio-active polysaccharides)
- **HIMALAYAN** strain of goji berry with the unique blend of 4 rare bioactive polysaccharides

IT GUARANTEES:

- authenticity of the **Himalayan VARIETY / STRAIN** with a spectral signature
- **QUALITY** and **CONSISTENCY**
- each bottle has the equivalent of 1 kilo fresh goji berries of the Himalayan strain
- **money back** after drinking minimum of 30mls twice a day for 90 days if not satisfied
